Description: **Paint Waste Container Small – with one draining bin for your paint disposal**

EAN: 8714247064887

The Paint Waste Container Small, equipped with a single draining bin, is a compact stainless steel waste solution designed for the safe disposal of waterborne or solvent-based paints. Its durable construction and practical dimensions (60 × 45 × 124 cm) make it suitable for professional mixing rooms and paint processing environments.

Paint Waste Container for Safe and Efficient Paint Disposal

This compact container features one integrated draining bin, allowing operators to dispose of paint safely and efficiently. Leftover paint cans can be placed upside down on the draining grid, enabling paint residue to collect neatly in the bin below. The stainless steel body is resistant to chemicals and corrosion, ensuring long-lasting performance even in heavy-duty paint environments. Designed for connection to central extraction to efficiently remove contaminated air and fumes. Its compact footprint ensures that the unit fits seamlessly into most workshops or preparation areas without disrupting workflow.

The Paint Waste Container Small provides a cost-effective and responsible waste management solution for businesses looking to reduce environmental impact and maintain a clean workspace. By improving waste separation, minimising contamination, and ensuring compliant disposal, this paint waste container helps workshops meet environmental standards while enhancing overall operational efficiency. Its robust design, small size, and effective vapour extraction make it an excellent investment for any paint processing facility aiming to improve safety and sustainability.

Key features

- Compact stainless steel paint waste container
- One integrated draining bin for paint can emptying
- Suitable for waterborne and solvent-based paint residues
- Designed for connection to central extraction to efficiently remove contaminated air and fumes
- Efficient draining system for upside-down paint can disposal
- Chemical-resistant and durable stainless steel construction
- Space-saving dimensions: 60 × 45 × 124 cm
- Ideal for paint workshops, mixing rooms, and processing facilities
- Supports environmentally responsible waste handling

Product details

- Brand: Hamach
- Number: 000482
- EAN: 8714247064887
- Width (cm): 45
- Height (cm): 124
- Depth (cm): 60
- Weight (kg): 30
- Material: smooth brushed stainless steel
- Grate surface (approx.): 45 x 60 cm
- Recommended extraction volume: 100_m3h
- Storage capacity: 1x 30L collection tin (not included)
- Suitable for cleaning: Tins and mixing cups
- Suitable for fume extraction: yes
- Type of waste: Paint waste such as waterborne paints or solvent-based paints

Frequently Asked Questions

- **Can the Paint Waste Container be used without extraction?**
  No, connecting the Paint Waste Container to forced ventilation to prevent unsafe situations is always advised.
- **Can the unit be used for water and solvent waste?**
  Yes, but not at the same time (cannot be mixed).
